Subject: RE: Kalamazoo River funding

---

Jim,

Will you continue to use special account funds?

Linda,

We just heard from Joan and we are okay with renewing the MDEQ grant for another 2 year period for the same amount. I'll speak to Paul Bucholtz at MDEQ on my end. If you want to follow up with Esther at MDEQ that would be great.

Thanks  
Jim

Hi Jim, please see below email string - not sure how far along you are with deciding on funding amounts and additional work activities at the Kalamazoo site. MDEQ is interested in more funding and extending the current award as discussed in the desk review back in November. If you are in agreement with the request the state will have to come in with a application for supplemental funding and extension. At this time I'm not sure what you and your MDEQ counterpart have agreed upon but funding will need be requested through special account and the state will need to get that application one you ok the approved workplan. Thanks. Please advise.

**Subject:** Kalamazoo River funding

Hi Linda –

I am a little concerned. Our grant expires 3/31/14, and I have not received any guidance on future funding. Our discussion at the time of the desk review ended with James checking on the level of funding we could apply for (my suggestion was to continue at the \$100K/year), and you checking with Denise about whether we should apply for a new grant or extend the current one for another two years. Applications for grants starting 4/1/14 were due 1/15/14, and that is the group we should be with. So are there any decisions about funding and should we proceed with a new application? Thanks.
